**NOTES FROM A MEETING BETWEEN NEWBALD PARISH COUNCIL,
YORKSHIRE WATER, EAST RIDING OF YORKSHIRE COUNCIL AND THE
ENVIRONMENT AGENCY – 22 JANUARY 2024**

Please see below the notes of a meeting regarding the ongoing excess water and sewage issues in the Village.

The Parish Council fully understands the significant distress these issues have caused to residents in the Village, especially those directly affected. As a Parish Council, we will not be discussing further issues on WhatsApp groups or Social Media due to many unnecessary and inappropriate comments. We will of course continue to represent the concerns of the Village and will maintain a dialogue with other agencies in an attempt to resolve issues of concern.

If residents have any issues with the technical contents of these notes they should contact the relevant agency directly. The Parish Council are not in a position to respond to individual concerns over riparian responsibilities or resilience measures.
